PROFESSIONAL SUMMARY

Frontend engineer with nearly 3 years building React and Next.js applications, currently the sole frontend developer on a travel booking platform spanning flights, hotels, and trains. Comfortable owning features end-to-end from third-party GDS/travel API integration and multi-step booking flows to authentication and responsive, accessible UI. Work daily with TypeScript, React Query, and Tailwind CSS in an Agile team.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks & Libraries: React.js, Next.js, React Query, Tailwind CSS, Material UI, Framer Motion

State & Data: React Query, Context API, REST APIs, Axios

Auth: Login flows, protected routes, token handling, session management

Performance & UI: Lazy loading, code splitting, memoization, reusable components, responsive design, accessibility (WCAG)

Tools: Git, GitHub, Postman, VS Code, Jira, Figma, Agile/Scrum

PROFESSIONAL EXPERIENCE

Frontend Software Engineer — Enspirite Technologies

Somajiguda, Hyderabad, Telangana, India | Sep 2023 – Present

- Sole frontend developer on a travel booking platform covering flights, hotels, and trains, working alongside four backend engineers and one full-stack developer in a team of roughly 9–11.
- Built end-to-end booking flows in React.js and Next.js search, results and filtering, passenger and guest detail forms, fare rules, and checkout across all three verticals.
- Integrated third-party travel/GDS REST APIs for search and booking, using React Query for data fetching, caching, and background refetching, with Axios and Context API for shared state.
- Implemented frontend authentication end-to-end: login, protected routes, token handling, and session management.
- Applied lazy loading, code splitting, and memoization to keep large search-result and booking screens responsive.
- Built responsive, accessible interfaces with Tailwind CSS and Material UI, following WCAG practices across desktop and mobile browsers.
- Owned features end-to-end in Agile sprints, collaborating with backend and product, and taking part in code reviews and design discussions.
- Helped two junior developers get up to speed on the codebase and reviewed their work.

PROJECTS

Resume Builder Application — *personal project*

React.js, TypeScript, Tailwind CSS

- Built a resume builder with live preview and PDF export, with multiple reusable templates sharing a common component structure.

E-commerce Admin Dashboard — *personal project*

Next.js, TypeScript, Material UI

- Built an admin dashboard for products, orders, and users with CRUD, pagination, search, sorting, and form validation, using reusable table components and cached API data.

EDUCATION

Bachelor of Engineering, Electrical and Electronics Engineering

Vidya Jyothi Institute of Technology, Hyderabad, Telangana | Aug 2019 – May 2023 | CGPA: 8.0/10
